

Instruction for determining dimensions of mosquito net on the window frame

Determining width dimensions

- Measure the inside width of the window opening from the rubber bead at one side to the rubber bead at the opposite side.
- Please measure your window with the precision up to 1 mm.

Determining height dimensions

- Measure the inside drop of the window opening from the top rubber bead to the bottom rubber bead.
- Please measure your window with the precision up to 1 mm.

Determining frame dimensions

- Measure the thickness of the window frame together with the inside rubber bead.
- Please make your measures with the precision up to 1 mm.
